ANTHONY SAICH

Anthony Saich is the director of the Ash Center for Democratic Governance and Innovation and Daewoo Professor of International Affairs, teaching courses on comparative political institutions, democratic governance, and transitional economies with a focus on China. In his capacity as Ash Center Director, Saich also serves as the director of the Rajawali Foundation Institute for Asia and the faculty chair of the China Programs, the Asia Energy Leaders Program and the Leadership Transformation in Indonesia Program, which provide training programs for national and local Chinese and Indonesian officials.

Saich first visited China as a student in 1976 and continues to visit each year. Currently, he is a guest professor at the School of Public Policy and Management at Tsinghua University, China. He also advises a wide range of government, private, and nonprofit organizations on work in China and elsewhere in Asia.

Saich is a trustee member of the National Committee on US-China Relations (2014-), AMC Entertainment Inc., the chair of the China Medical Board, and International Bridges to Justice. He is also the US Secretary-General of the China United States Strategic Philanthropy. He sits on the executive committees of the John King Fairbank Center for Chinese Studies, Council on Asia Studies, South Asia Initiative and the Asia Center, all at Harvard University. He serves as the Harvard representative of the Kennedy Memorial Trust and previously was the representative for the Ford Foundation's China Office from 1994 to 1999. Prior to this, he was Director of the Sinological Institute at Leiden University in the Netherlands.

His current research focuses on politics and governance in post-Mao China, China's urbanization and rural-urban inequality in China; and the interplay between state and society in Asia and the respective roles they play in the provision of public goods and services at the local level. His most recent books include *Governance and Politics of China* (Fourth Edition, 2015); *Chinese Village, Global Market* (2012); *Providing Public Goods in Transitional China* (2008); *Revolutionary Discourse in Mao's Republic* (with David Apter, 1998); *The Rise to Power of the Chinese Communist Party* (1996); and *China's Science Policy in the 80s* (1989). He has edited books on *Political Governance in China*, 2015, *Philanthropy for Health in China* (with Jennifer Ryan and Lincoln Chen, 2014), *China's urbanization* (with Shahid Yusuf, 2008), *HIV/AIDS* (with Joan Kaufman and Arthur Kleinman, 2006), and the *Reform of China's Financial Sector* (with Yasheng Huang and Edward Steinfeld, 2005).

He holds a Ph.D. from the Faculty of Letters, University of Leiden, the Netherlands. He received his master's degree in politics with special reference to China from the School of Oriental and African Studies, London University, and his bachelor's degree in politics and geography from the University of Newcastle, UK. Away from the office, he enjoys time with his two children, movies, and soccer.

BIOGRAPHY

Andrew Sisson

USAID/Indonesia Mission Director

Dr. Andrew Sisson, USAID Mission Director, started in Indonesia on October 1, 2012. A Career Minister in the Senior Foreign Service, he most recently served as Mission Director in Pakistan, managing one of USAID's largest programs worldwide. He was previously Mission Director for the Central Asia and East Africa regions. During 1999-2002, as Deputy Mission Director he helped establish the USAID Mission in Kosovo, and during 2007-2009 he taught at the National Defense University in Washington, D.C.

For most of 2014, on a temporary assignment away from Jakarta and back in Washington, he led the start-up of the U.S. Global Development Lab. A new USAID bureau, the Lab promotes science, technology, innovation and partnerships to accelerate development worldwide.

USAID is the lead agency for the U.S. Government that extends support from the American people to help Indonesians build a better future. USAID co-invests with the Indonesian Government and private sector to enhance the quality of education, strengthen democracy, sustain the environment, improve health, and collaborate in science, technology and innovation. Under his leadership, USAID contributes to the U.S.-Indonesia Comprehensive Partnership inaugurated by Presidents Barack Obama and Susilo Bambang Yudhoyono in 2010.

Dr. Sisson earned his Bachelor of Arts from Williams College, a Master of Arts and a PhD from the Fletcher School at Tufts University and a Master of Science from the National Defense University. His areas of interest include economic and political development, innovation, reconstruction and stabilization.

He is joined in Indonesia by his wife, Karen Levine, a retired Foreign Service Officer of the U.S. Department of State.

HASBULLAH THABRANY

Hasbullah Thabraney was born in Jakarta in 1954 and just received a Medal of Bakti Utama Kesra (October 2014), a high contribution to the Welfare of Indonesia from the Coordinating Ministry of Peoples' Welfare (Menko Kesra). As Native Jakarta, Mr. Thabraney also has been paying a lot of attention to improve human resource capacity of the "Betawi" population. In 1982, together with General Eddy M Nalapraya and the late Wim Salamun (of Democratic Party, PDI) Mr. Thabraney established unified Council of Betawi's Organizations (Bamus Betawi). Mr. Thabraney has been working actively to improve social security system starting with universal health coverage (*Jaminan Kesehatan Nasional, JKN*) in Indonesia and Pension for all Indonesians starting July 2015.

Mr. Thabraney obtained MD degree (1980) from Universitas Indonesia and Dr.PH degree (1995) from the University of California at Berkeley, USA. Right after graduated from the Medical School of Universitas Indonesia until present, Mr. Thabraney has been actively serving as an activist of the Indonesian Medical Association, including as Secretary General (1997-2000) and Chairman of the Collegium of General Practitioners (2014). He received recognition as Health Insurance Professional (HIA) and Managed Health Care Professional (MHP) from the Health Insurance Association of America, now the American Health Insurance Plans. He was the founder of the Indonesian Association of Health Insurance Managers and became the Chairman of the Association (PAMJAKI, 1998-2010). He served as the Chairman of Examiners' Board of PAMJAKI 2010- 1014. He was a key contributor of the Presidential Task Force to reform social security system (SJSN). He was the dean of the School of Public Health at the Universitas Indonesia (2004-2008) and President of the South East Asian Public Health Institutions Network (2009- 2011). At present, he is a professor in Health Economics and the Chairman of the Center for Health Economics and Policy Studies at Universitas Indonesia, the leading university in Indonesia.

JAY ROSENGARD

Adjunct Lecturer in Public Policy
Academic Director, Rajawali Foundation Institute for Asia
Ash Center for Democratic Governance and Innovation

Jay Rosengard, Lecturer in Public Policy at the Harvard Kennedy School, has forty years of international experience designing, implementing, and evaluating development policies in public finance and fiscal strategy, tax and budget reform, municipal finance and management, intergovernmental fiscal relations, banking and financial institutions development, financial inclusion, micro, small, and medium enterprise (MSME) finance, mobile banking, and public administration.

He has worked for a wide variety of multilateral and bilateral donors, as well as directly for host governments and private sector clients. Rosengard is Director of the Mossavar-Rahmani Center for Business and Government's Financial Sector Program, which focuses on the development of bank and nonbank financial institutions and alternative financing instruments. This includes microfinance (small-scale lending and local savings mobilization), mainstream commercial banking (general and special-purpose banks), and wholesale financial intermediation (municipal development funds, venture capital funds, pooled financing, secondary mortgage facilities, and securitization).

In addition, Rosengard is a Faculty Affiliate of both the Ash Center for Democratic Governance and Innovation and the Center for International Development. At the Ash Center, he is Academic Director of the Rajawali Foundation Institute for Asia and Faculty Chair of the HKS Indonesia Program. He also serves as Faculty Chair of four executive programs: FIPED (Financial Institutions for Private Enterprise Development), which focuses on sustainable and effective MSME finance; ComTax (Comparative Tax Policy and Administration), which addresses key strategic and tactical issues in tax design and implementation; VELP (Vietnam Executive Leadership Program), which is an innovative policy dialogue with senior Vietnamese leadership; and Transformasi (Leadership Transformation in Indonesia), which is designed to assist Indonesia in its decentralization initiatives.

ANURAJ SHANKAR

Dr. Anuraj H. Shankar, D.Sc. is a Senior Research Scientist at the Harvard T.H. Chan School of Public Health. He completed his doctoral degree in immunology at Harvard University in 1993 and began a career aimed at integrating basic science, public health, and human development.

Dr. Shankar brings a unique perspective based on a diverse knowledge and over 25 years of experience in international health and development. He was previously Coordinator for Monitoring and Evaluation in the Department of Making Pregnancy Safer at WHO, Geneva, and worked with Helen Keller International as Regional Advisor-Asia/Pacific and Director of Biomedical Sciences and Programmatic Research in Indonesia. He has conducted large scale field research and advised on program activities in multiple countries in Asia, Latin America, and Africa, and has authored over 50 articles on immunology, infectious disease, nutrition, maternal and infant health and child cognition and development.

Dr. Shankar has served on multiple expert panels for WHO and UNICEF and has been a core contributor to global health initiatives such as the Countdown 2015, the Global Alliance for Prevention of Prematurity and Stillbirths, and the Open Smart Register Platform (OpenSRP). He is also active in training and mentoring scientists from low and middle income counties. His recent work in Indonesia established an operational paradigm for large scale community participation in design and execution of research and use of data locally to enhance maternal and perinatal health and child cognition. Dr. Shankar's current areas of research interest relate to integration of health interventions and monitoring to build local capacity for use of data in decision-making to scale up services and strengthen quality of care.

SRIOPEN TANTIVESS

Senior researcher

Health Intervention and Technology Assessment Program (HITAP)
Ministry of Public Health, Thailand

Sripen Tantivess is a pharmacist by first degree, and have a PhD in Public Health and Policy from the London School of Hygiene and Tropical Medicine. She worked at Thailand's Food and Drug Administration as technical officer and program manager for almost 20 years. During this period, she was involved in market approval of pharmaceutical products, national drug policy formulation, and drug selection to the National List of Essential Medicines.

Dr Tantivess began her research career in 1999, when she joined a capacity strengthening program on health financing and policy research under the Health Systems Research Institute, Thailand. Currently, she is a senior researcher of the Health Intervention and Technology Assessment Program (HITAP), a research arm of the Thai Health Ministry. Her main research area involves policy analysis and its application in technology assessments including studies on sociopolitical consequences of public policies in the health sector. She is interested in analyzing the roles and power of stakeholders, influence of contextual factors, as well as the processes through which particular health interventions are adopted and implemented.
